SEX IN POLITICS: THE PRIMER (PAPERBACK)

[DOWNLOAD](#)

BookBaby, United States, 2016. Paperback. Book Condition: New. Language: English . Brand New Book. This book is a primer. It minimizes the descriptions of the science its conclusions are based on. It briefly describes what is essential to human nature, after the complexities of culture are subtracted out. It also only briefly describes how human nature separates on gender roles determined by the sexual process. In abbreviated form, it tells the story of life, from animals to us, and from us as individuals to us as members of society. It shows how politics, the basics of politics, is related to sex. The rest of politics is nothing more#151;or less#151;than variations on our . . . genes! It focuses on sex as it relates to today?s American political world. However, it uses the influence of sex on politics as a clue to explain where we might be in the Civilization Cycle, which describes the rise and fall of civilizations. It makes the point that in order to understand history, we must understand the basics of biology underlying it. Chapter 1, Sex In Politics, opens with a listing of political functions as they derive from basic human sexual functions. It shows how the Democratic Party promotes Inside the Nest policies and styles, while the Republican Party promotes Outside the Nest ones. It shows how the sexual roles of men and women align with these functions and policies. The rest of this book explains how this came to be. Chapter 2, Before Sex, describes how limited life was before sex came along. The life imperatives of survival and reproduction are laid out, as is the way natural selection works. Chapter 3, Sex, describes the advantages of sex. Chapter 4, The Birds and The Bees, shows how a look at simple species can help...
