This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2008 in the subject Business economics - General, grade: 1,3, University of Applied Sciences Essen, language: English, abstract: According to the Focus magazine approximately 13 million Germans contributed to the shadow economy in 2006! The estimations of Friedrich Schneider, one distinguished expert in this area, showed that the extent of the shadow economy in Germany in 2007 was about 349 billion Euros, which equals to 14.7 percent of Germany's gross domestic product (GDP)! The scope of the present assignment is to provide an all-embracing and critical overview of the shadow economy, to introduce the main causes, effects and dimensions of the shadow economy and to find answer the question how shadow activities can be limited. In this context the hidden sector can be defined as all economic activities that are not recorded in the national accounts, but normally should be a part of them and be included in GDP. These actions can be on the one hand absolutely legal in the self-sufficient economy like do-it-yourself, neighbourhood help, but on the other...
