USACERL TR 99 41 15 That means thinking about facility equipment in terms of systems, subsystems, components, and subcomponents. This terminology is used throughout this manual. RCM Principles The primary RCM principles are: 1. RCM is Concerned with Maintaining System Functionality. RCM seeks to pre-serve system or equipment function, not just to maintain a piece of machinerys operability for operabilitys sake. It should be noted that a common strategy is to maintain system function through equipment redundancy. Equipment redundancy improves functional reliability but increases system life cycle cost ( due to the increased first cost of installing the redundant equipment ). The increased life cycle cost of installing redundant equipment often eliminates redundancy as the RCM method of providing system reliability. 2. RCM is System Focused. It is more concerned with maintaining system function than individual component function. The question asked continually is:...
