Createspace, United States, 2014. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Sorry If I Disturb You Sorry If I Disturb You is a book about Jayden, an eight-year-old boy with Autism. The book covers Jayden s journey from the week after his first birthday, when on a routine checkup with a Pediatrician, his grandmother was told by the Pediatrician, I think your grandson has autism. From that day onward, those words from the Pediatrician shaped the life Jayden would live. Suddenly, the reason why her baby would not allow her to hug him was clear to his mother. The quirky things Jayden would do, like walking on his tiptoes, spinning around aimlessly and lining up items in rows all made sense now. Now, they were not simply quiriness, they were signs that Jayden suffered from autism. The book covers Jayden s struggles, milestone and victories. One big victory was when, at around four years of age, Jayden started to speak clear enough that his words could be understood. Although it took many years to accomplish, at around age six, Jayden became fully potty trained, and now uses the bathroom like any other person would. One of the most disheartening aspects is how he is viewed and treated in public. Unlike other disabilities, children with autism usually show no obvious signs of disability, this often works against the child because when they throw tantrums, sing loudly, talk too much in public or are just being disruptive in public, they are viewed as a bad child, with bad parents. The comments that come with these incidents are often times hurtful. Too often, the child s actions are misunderstood, but the parent who struggles to keep the child safe is also misunderstood....
