## ADVANCED APPLIED MATH - (E. INFORMATION CLASS)

DOWNLOAD

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 280 Publisher: Machinery Industry Press. Pub. Date :2008-8-1. This book is the basis of the national machinery of public vocational education teaching mathematics group of the Steering Committee prepared by the Organization of higher vocational education reform project planning materials. The main contents include: functions. limits and continuous. derivatives and derivative. derivative applications. indefinite integral. definite integral and its applications. multi-function calculus. ordinary differential equation initial. infinite series. Laplace transforms. linear algebra . In addition, each chapter comes with mathematical experiments and applications to enable students to experiment through a better understanding of mathematics teaching content. but also for the students to solve practical problems provide a simple. fast tool. This book can be used as electrical and electronic information vocational professional mathematics teaching. Also be used as adult college and engineering and technical personnel to update their knowledge of higher mathematics self-study book. Contents: Preface Chapter 1 Functions. limits and continuous functions 1.3 1.2 1.1 Preliminaries 1.4 infinitesimal limit of the function and the limit of infinite algorithms 1.5 1.6 1.7 two important limits of continuity and discontinuity function and application of a mathematical test problems a review Chapter 2 derivative and differential 2.1 the concept of derivative 2.2 derivative calculation 2.3 Composite functions and inverse function of the derivative method 2.4 implicit function and the parametric equation of the derivative method 2.5 higher order derivatives 2.6 Functions of differential mathematical experiments and applications two review questions two Chapter 3. the application of derivative 3.1 Mean Value Theorem 3.2 'Hospital's Rule 3.3 3.4 monotone function with the most extreme values ??of the function 3.5 Functions of the nature and function of the image mapping experiments and...
